## 40 *MOTORHOME FORUM*

## 42 *FLOOR PLAN OVERVIEW*

*Figure left: Profila T 720 QF (page 20).*

# QUALITY MADE BY EURA MOBIL

Set off and leave the worries of everyday life behind - your Eura Mobil will help you do exactly this in every conceivable way.

With their functions and characteristics inspired by years of practical experience, our motorhomes make travelling an endless delight. Whether it be the generous storage space, protection from the weather thanks to the GRP chassis, stability during winter and comfortable underfloor heating thanks to heated double floors, insurance benefits or generous warranties - we've thought of everything you could need to make your holiday worry-free.

# *COACHBUILTS*

## *ACTIVA ONE 690 VB*

Eura Mobil's traditional strengths really come into play for families in the new Activa One 690 VB: generous storage space for luggage and toys in the double floor structure and the rear garage, plenty of room for the whole family, robust furniture in the interior and a durable GRP chassis all ensure a wonderful and carefree family holiday.

+ **Bright modern furniture** with a 3-year guarantee

+ **Coachbuilds:** insulated and heated

+ **Fold-out coachbuilt floor** offers easy access to the driver's cab

+ **Dinette in a wicker beach chair look** with up to four seats with safety belts

+ **Double floor 37 cm high** with plenty of storage space

*EVERYONE HAS  
THEIR FAVOURITE  
SPOT...*

... this could be the motto of the Activa One 690 VB. Whether it's in the centre seating group, in the large kitchen with lots of extra space in the cupboards, or in the children's room in the rear – there are places throughout the vehicle that put everyone in a good mood. Let's go! – try it out!

**+** Robust upper cabinets with aluminium profiles and rattle protection feature

**+** Separate children's room with bunk beds and a seating group

**+** Large wardrobe

**+** Kitchen with a 142-litre refrigerator, extra-wide drawers and a dish towel rail

*YIPPEE! A SEPARATE  
PLAYROOM AND  
BEDROOM FOR KIDS*

Pssst – it's your secret! – and was made just for you: A table to eat or play on that can be hung up, and two pull-out beds in a cool wicker beach chair look are waiting for you. Two of you can sleep together in one bed or each can sleep alone in their own bed... or you can just romp around and have fun! ☺

+ **Bunk bed** with a sturdy slatted frame

+ **Beds** with a window and a reading light

+ **Large storage area** under the bottom bed

+ **Make four out of two:** pull-out slatted frame with a second mattress above and below

+ **Table** that can be hung up

# ACTIVA ONE 690 VB

**Easy to use:** The bathroom with its swivelling wash basin combines fun and functionality. When the wash basin is pulled out to the side, you have full freedom of movement in the shower as well. The cabinet with shelves on the side is always accessible and the fan heating unit keeps the bathroom cosy and warm – just like at home!

# DETAILS AND HIGHLIGHTS

There's good reason why the coachbuilds from Eura Mobil are always at the top of the rankings for Motorhome of the Year awards. Word has definitely gotten round about their reliable technology, practical room division concepts and high quality materials and workmanship. And yet, every Activa One also features numerous yet to be discovered details that set the series apart from the rest.

## Coachbuilds

The insulated and heated coachbuilds offer you a perfect place to relax. The 160x210 cm bed rests upon a sturdy slatted frame and is well protected against cooling by efficient wall and ceiling insulation, the coachbuilt floor and a fan heating unit.

## Flexibility makes the difference

You can decide on the spur of the moment whether you want to set up the rear of the 690 VB with a double bed on top and a single bed on the bottom, or the other way around, or with two single beds, or with two double beds – all of these options are possible, thanks to the pull-out slatted frame.

## The swivelling table

The tabletop is equipped with an extension that swivels out, thereby ensuring that the whole family has plenty of room when they sit down for a meal together. The extension is always there when you need it – but never in the way when you need to pass through.

## Need to freshen up?

The Activa One bathroom also impresses with sturdy furniture, loads of small storage areas and plenty of room in the shower. It's a good thing too that the pressurised water pump kicks in without delay, providing a refreshing water stream just like at home.

## Cellar arithmetic

High double floor + individually adjustable storage area = space exactly where you need it. Made possible by storage area partitioning by your authorised dealer – precisely in line with your wishes. And because it's Eura Mobil, it's all frost-proof, of course, with an underfloor heating effect as well.

## An edge for you

Another hidden, unassuming detail that makes all the difference: The robust aluminium panels ensure your Activa One will be able to handle kicked-up rocks or branches without suffering any body damage – which is good for your wallet and your nerves.

## Extremely practical...

... best describes the Activa One when you're on the road. Consider the dish towel rail, which serves as a shiny decorative piece in the kitchen – and also ensures that dish towels dry quickly and are always within reach.

## Perfectly shaped

It's not just the Activa One's intrinsic values that impress, as the coachbuilt's dynamically curved front end and roof component are also beautifully designed. The hail-proof GRP surfaces and the way the roof shades the driver's cab make this exterior design very practical as well.

# LOW-PROFILE

*PROFILA T / RS 720 QF, PT 730 EF and PT 660 EB*

▲ PRS 730 EF

The new floor plans with lounge sofas facing each other (so-called face-to-face floor plans) are all the rage at the moment. The most striking aspects of this layout include a variable-use seating group and an open and spacious atmosphere with plenty of room to move around. As is typical for Eura Mobil, our variants allow you to benefit from extra storage space in the double floor and garage, as well as a clever kitchen and bathroom design.

+ In the Profila RS: lift-up bed flush with the ceiling (standing height: 1.98 m under the bed)

+ Modern furniture with ambient lighting

+ Two fold-out single seats with Isofix mounts

+ Two sofas that still leave plenty of room to move around

*FOR THE  
WELL-RESTED!*

The new floor plans really show off their special strengths in the Profila RS with its lift-up bed that's flush with the ceiling. The sofa/window combination results in extra light and space, leading to a whole new feeling of comfort on the passenger side in particular.

**+** Panoramic glass roof and Midi-Heki make for an extremely bright and airy atmosphere under the roof

**+** Handy shelves right next to the lift-up bed

**+** Double bed  
190 x 143 cm

**+** Comfortably low entry height for the lift-up bed

## *WHAT A KITCHEN!*

That's the first thing you'll say when you see the ergonomically curved kitchen unit in the EF floor plans. **The carefully detailed workmanship that's so apparent in the spice rack and the illuminated high-gloss splash guard is combined with design highlights like the retractable tap under the foldable worktop extension, which can also be used as a dish draining board.**

+ Practical  
spice board

+ Hinged cover and  
retractable tap

+ Ergonomically curved kitchen unit front with a mineral  
work surface and an integrated sink ("cast in one piece")

+ Room-divider doors to separate the kitchen and the  
bathroom and the bathroom and the bedroom

# *PROFILA T/RS 720 QF*

## *DETAILS AND HIGHLIGHTS*

If you have a look at the Profila T 720 QF shown here, you can clearly see the folding table top that ensures particularly easy access to the driver's cab when you need it. A fantastic feeling of spaciousness is all part of the package here as well! There's also plenty of room to move around in the rear, as the comfortable height-adjustable central bed with a linen compartment and an adjustable headboard fits snugly between two wardrobes – and there's also a large garage underneath. As if that weren't enough, a colourfully illuminated rain shower in the bathroom provides for a true spa-like atmosphere.

# *PROFILA T 730 EF*

## *DETAILS AND HIGHLIGHTS*

The 730 EF plays a special role in the model range. With low single beds and a bathroom in the rear that extends across the entire width of the vehicle, the clever floor plan for this model features two rooms completely separate from the front of the vehicle. You'll also find plenty of storage space in the storage compartments under the beds and in the large wall units in the bedroom.

#### Easy access

The large storage compartments in the 730 EF are designed to allow you easy access to contents from the inside – and just as easy loading from the outside!

#### Variable garage

The height-adjustable bed in the QF models ensures you'll have enough space to transport bicycles if you like.

#### Spatial transformation

The room-divider doors that separate the kitchen and bathroom, and the two sliding doors between the bathroom and bedroom, allow you to transform the bathroom into a dressing room in the wink of an eye.

#### A clear symbol of quality

A sturdy GRP roof compartment for the lift-up bed instead of a simple flip-up wall with a curved standard roof.

#### Couldn't be any easier

The sofas in the EF and QF floor plans can be transformed into single seats in the direction of travel – with Isofix mounts – in no time.

#### The comfort tourer for two

*No image.* The new Profila RS 695 LF combines comfort in the form of lots of space with a fascinating wardrobe-garage combination. For details on the underlying principle, see Integra Line 695 LF (page 30).

# *PROFILA T 660 EB*

## *DETAILS AND HIGHLIGHTS*

The new Profila T 660 EB is an inspiration with its manageable length of 6.99 m and easy handling. It offers plenty of sleeping comfort as well, with two 2-m-long single beds and a spacious garage underneath. The new all-rounder in the popular 7-m class also features an L-shaped seating group with a single seat on the passenger side, a longitudinal kitchen with a 142-litre refrigerator and a washroom with a swivelling washbasin and integrated shower.

# *A-CLASS*

## *INTEGRA LINE 695 LF*

The Integra Line 695 LF achieves a wonderful balance between an ultra-comfortable living space landscape, a fully functional kitchen, a spacious bathroom and a large and cleverly designed garage-wardrobe combination. The surprising thing about the Integra Line is that even with a length of 6.99 m, it is quite agile and easy to handle. Find out for yourself!

+ Spacious **lounge seating group** for up to 7 people

+ **Sofa** 1.60 m wide

+ Large **panoramic windscreen** that provides for an optimal view of the road and lets in lots of light

## *THE WONDERFUL WALL UNIT*

From the driver's cab, your gaze is directed towards the marvellous living space landscape and past the snazzy kitchen and spacious bathroom – and finally ends up focusing on what are rather nondescript wardrobe door panels. These panels can easily be pulled forward, however, and what you end up with is a bathroom that has been transformed into a perfect dressing area. As if that weren't enough, you also have direct access to the bicycle garage underneath the wardrobe.

+ Fantastic feeling of spaciousness despite a compact length

+ Spacious bathroom with a huge variable wardrobe

+ Kitchen with a hinged cover and retractable tap

+ Home cinema with a pivoting 32" screen

+ Pivoting driver cab seats with integrated seatbelts and armrests

# *THE LARGE-CAPACITY MOTOR-HOME FOR TWO*

What a great spatial effect! Even when the lift-up bed is lowered, the IL 695 LF still seems extraordinarily spacious – and it is in fact. When you set it up in the daytime arrangement, you might even imagine you're in the middle of a garden pavilion – that's how bright and open the atmosphere is in this roomy model.

+ **Large Heki skylight**  
makes everything bright

+ **Extra-wide, lowerable lift-up bed**

+ **Insulated driver's cab door and window**

+ **Folding table top** ensures easy access to the front

+ **Fold-out single seats**  
(incl. Isofix)

# INTEGRA LINE 695 LF

**The details:** The dressing room with the bathroom and the sophisticated wardrobe. The two wardrobe panels can be easily swivelled to the centre so that clothes can be reached without having to bend over. The centre can be used as an additional storage area – or as a shelf when you're changing.

# DETAILS AND HIGHLIGHTS

Great comfort and plenty of space – these are just two of the many strengths displayed by the IL 695 LF. The floor plan makes clever use of the stylish and modern GRP shell in our Integra Line.

## Rear garage

There's plenty of room for bulky luggage or bicycles in the lowered rear garage located underneath the wardrobe.

## Direct access

You can also directly access the garage from the interior. This can be very practical when you need to hang wet clothes up to dry in the bathroom, since you don't have to carry them all the way through the vehicle.

## Cinematic experience

The 32" screen can be easily swung out from its wall mount in the entrance area, with a perfect view from all seats.

## Painstakingly crafted details

A satin-finished aluminium grip plate and surface quality you can see and feel on the instrument panel are just two examples of the outstanding high quality materials and workmanship that define the Integra Line.

## Safety first

The optional LED main headlights with static cornering lights give the IL a distinctive look – and also optimally illuminate the road ahead at night.

## "Cast in one piece"...

... is how one could describe the GRP front mask, not just in terms of the visual impression it makes but also with regard to its construction design – with a perfect fit and superlative stability that help ensure a high degree of chassis torsion resistance.

## Extremely easy to operate

The push of a button is all it takes to empty the waste water tank conveniently from the garage. No more dirty hands, no more bending over – this is what comfort is all about.

*Not shown:* The new IL 720 QF and IL 730 EF floor plans – for information on the room division concept, see PT/PRS 720 QF/730 EF

# A-CLASS

## INTEGRA 760 EF / QF

Admittedly, given such spacious floor plans, it seems like an understatement to talk about an “entry-level model” for the luxury class. And yet it is perhaps exactly this type of “modest luxury” that those who purchase an Integra 760 EF / QF are looking to experience when they select the model. Indeed, it has everything you would expect from a luxury motorhome and it truly surprises in terms of all the things that can be achieved with a length of less than 8 metres.

+ Bus mirror with wide viewing angle field

+ "Short cabin" principle provides for an optimal view of the road ahead

+ LED main headlights with cornering lights

+ Chrome-plated radiator grille

+ Single-piece three-dimensionally curved rear section

+ LED indicators with direction-indicating running light

+ Available as a two-axle or three-axle model

*TRUE GREATNESS...*

...is something many talk about. Yet, hardly any other motorhome of this length embodies such style, spacious comfort and outstanding functionality as does the Integra 760 EF, or the QF: The expansiveness of the face-to-face living space landscape is repeated in the spacious driver's cab with comfort seats that feature electric height adjustment and lumbar supports. If instead of the lift-up bed you choose the storage cabinets that are arranged around the driver's cab, then you're sure to be thrilled by the dome-like, airy and bright atmosphere created as a result.

**+** Thrilling spaciousness and additional storage space with optional storage cabinets (in place of the lift-up bed)

**+** Lounge seating group with pull-out TV on the passenger side

**+** Pilot's seats with lumbar supports

**+** Large table with a divided table top that allows for easy passage through the room

# INTEGRA 760 EF

Two large single beds (2.0 metres and 1.95 metres in length) situated above a large rear garage, plus additional storage space in the rear cabinets – these are just two of the outstanding practical features offered by this variant. The magical atmosphere created by the indirectly illuminated rear wall with chrome plating, as well as ceiling struts that are also illuminated, is certainly one of the major selling points of this fantastic model.

# INTEGRA 760 QF

That certain amount of extra comfort accompanies you with every step you take through the bedroom of the Integra 760 QF. It goes without saying that the 1.50-metre-wide central bed is height adjustable, and that the headboard can be adjusted as well. What's more, with a linen compartment at the foot of the bed, plus two wardrobes and two corner cabinets, this floor plan also offers a large number of easily accessible storage possibilities in the back.

*FINISHED IN THE  
PROPER STYLE...*

... is what you'll think when you see the bathroom and kitchen with their sophisticated ambient lighting, high-quality mineral surfaces and shiny furniture fronts with chrome inserts and top-class detailed solutions.

# DETAILS AND HIGHLIGHTS

Luxury as it manifests itself in the Integra is both stylish and discreet. Here, there's no desire to be conspicuous at all costs – there's only elegant design and functional perfection for you to enjoy.

### A shining example

LED headlights make a thrilling impression by creating a daylight-like atmosphere as they illuminate the road ahead. The static cornering lights provide support here in turns and curves.

### Nice and easy

All you need to do is push a button to lower the electrically controlled lift-up bed (which can be reached easily via the seats) to a comfortable entry height.

### At your service

The central technology compartment brings together the water outlet tap and other technical connection equipment in a unit in the side wall that can be easily accessed via a storage flap.

### Keeping things in order

The organisation system in the garage features storage boxes that can be mounted on the walls in a variable arrangement, thereby ensuring that everything will be put away neatly – and found again when it's needed.

### Double-coated... makes for better insulation

The side windows in the driver's cab are double-glazed and the wind-screen is fitted with blinds that protect against glare and offer additional insulation.

### Keeping things clean

The push of a button is all it takes to empty the waste water tank with the help of an electric drain valve – an on-board camera guides the driver to a position directly above the drain in the parking spot (optional).

### Great view from the rear

The back of the Integra is a sight to see as well: The single-piece three-dimensionally curved GRP rear wall speaks to a high degree of expertise – and a highly professional design.

### Cargo capacity in line with your needs

The Integra 760 is available in an ALKO two-axle or three-axle version. Those who are looking for easier handling should go with the two-axle configuration – but if you need to transport a lot of cargo, you should opt for the three-axle version.

# *MOTORHOME FORUM: WELCOME TO THE WORLD OF EURA MOBIL*

The journey begins the moment you enter our new Motorhome Forum. Experience the brand and all it has to offer, as well as the Eura Mobil family of motorhomes.

The exhibition space on the upper floor, measuring some 3,000 square metres, is where we showcase not only the motor homes of our own Eura Mobil brand, but also those of our sister brands, Forster and Karmann-Mobil, also based in Sprendlingen, along with motor homes from Benimar, Challenger, Mobilvetta and Roller Team, which are part of our Group's European brand network. As you know, we are keen to reach out to you and are happy to offer you advice whenever you need it. And we're always delighted to meet you at our customer events. On the ground floor, our new expanded customer service centre with a service support area and additional spare parts warehouse areas is ready to meet all of your service requirements.

We are looking forward to experiencing a relaxing and informative quality time of a very special kind with you in our new facilities.

All of the information in this brochure relates to the products listed herein and does not apply to any other products of Eura Mobil GmbH. The models illustrated in this brochure show the features available in Germany. They may also contain special features and accessories that are not included with the standard scope of delivery. All weights quoted are values with a fluctuation limit of +/- 5 per cent. Due to legal regulations, differences from the model variations described here and equipment featured may be necessary in certain countries. Please ask your Eura Mobil dealer about the exact scope and range available of model-specific and model-neutral features. Subject to errors and changes in design, equipment and special features. The publication of this brochure renders all previous catalogues invalid.

#### **General information regarding the weight situation in motor homes**

Special features (additional features) increase the weight in the vehicle's ready-to-drive state and reduce the cargo capacity. The weight of the additional equipment is detailed in our brochure information or your dealer / seller can tell you. The maximum number of persons permitted depends on the weight and axle load. It can be reduced if special features (= special equipment / additional equipment) and accessories are installed, so in the interests of cargo loading capacity certain seats cannot be used. If all seats are to be used, some cargo capacity may need to be foregone. The technically permissible overall weight and axle loads must not be exceeded. The cargo loading capacity reduces with the installation of special features

(= special equipment / additional equipment) and accessories. The cargo loading capacity is also not only dependent on the weight in the vehicle's ready-to-drive state, the actual vehicle weight, the weight of the accessories and the technical permissible overall weight, but also on the respective axle loads. The only way to achieve the highest possible payload supported by the vehicle's technology is to have a corresponding, axle-load-dependent load distribution.

Unless otherwise regulated, weight in ready-to-drive state as per Article 2 (4a) Regulation (EU) 1230/2012 is defined as: Vehicle dimensions with standard features according to manufacturer specifications (incl. vehicle tool kit) + fuel tank 90% filled

- + 75 kg (weight of the driver)
- + fluid gas bottle (filling capacity of 11 kg) made of aluminium filled to 100 % (equals 18 kg in total)
- + fresh water tank filled to 100% in drive position (capacity of the fresh water tank is limited to 25 litres of fresh water in ready-to-drive state, where technically feasible\*)
- + fresh water heater filled to 100% = dimensions in ready-to-drive state

\* marked capacity of the fresh water tank pursuant to appendix V. Part A (2.6 Fn). (h) Regulation (EU) 1230/2012 is limited to 25 litres by an overflow valve (recommended filling for driving), depending on the vehicle model

The technically permissible overall weight according to Article 2 (7) Regulation (EU) 1230/2012 is defined as: The vehicle's maximum weight when loaded as provided by the manufacturer.

Pursuant to the information provided in the catalogue, the maximum cargo loading capacity is defined as: Technically permissible overall weight – weight in ready-to-drive state = maximum cargo loading capacity.
